EXPERIENCE

•Zidio Development

May - July 2025

Web Developer Intern

Remote

- Participated in a 8-week project to build an Excel Analytics Platform, a full-stack application for uploading Excel files, analyzing data, and generating 2D and 3D charts.
- Contributed to the development of a blogging platform with features such as user authentication, a rich text editor for creating blogs, comments, likes, and an admin dashboard.

•Helios Infotech

January - May 2026

Software Developer Intern

Surat

- Developed an AI-powered website generation platform with prompt-based website creation, user authentication, credit management, Stripe payments, and MERN-based deployment.
- Built a real-time collaborative document editor featuring rich-text editing, live collaboration, comments, templates, authentication, and document export.

EDUCATION

•Pandit Deendayal Energy University, Gandhinagar

2022-26

Bachelor of Technology in Computer Science and Engineering

Current CGPA: 8.87

•Sardar Patel Educational Institute, Bhavnagar

2020-22

H.S.C

Percentage: 85.23%

COMPETITIVE PROGRAMMING PROFILE

- Codeforces | [Link](#)
- Leetcode | [Link](#)

COURSEWORK

- Data Structures and Algorithms
- Object Oriented Programming
- Operating System
- Web Technologies
- Database Management System

SKILLS SUMMARY

- Languages:** C/C++, HTML, CSS, Javascript, Java, Python, SQL
- Frameworks:** ReactJs, ExpressJs, NextJs, NodeJs, Tailwind CSS
- Database:** MySQL, MongoDB
- Developer Tools:** Git/GitHub, VS Code, Xampp
- Soft Skills:** Problem Solving, Leadership, Teamwork, Time Management

PROJECTS

•GenMode – Gen-Z Translator | [Link](#)

March 2024

Tech Stack: React, Typescript,shadcn/ui , Supabase, OpenRouter AI, PostCSS.

- AI-powered web app to convert regular text into authentic Gen-Z slang with selectable personas (*TikToker, Meme Lord, VSCO Girl*).
- Integrated OpenRouter AI API for context-aware text translation and Supabase for authentication, real-time database, and user session management.
- Translation history, copy/share options, user dashboard, and secure session management for personalized experience.

•Diagnosely – AI-Powered Medical Assistant | [Link](#)

August 2024

Tech Stack: React, TypeScript, Node.js, Express, Supabase, OpenRouter AI, Tesseract.js

- Full-stack AI web app for analyzing medical documents (reports, prescriptions, PDFs, images) and providing personalized healthcare insights.

- Utilizes Tesseract.js for OCR and OpenRouter AI for summarizing findings, explaining medical terms, and generating recommendations.
- Implemented AI chat system for context-aware health queries and a dashboard to track document analysis history and insights.

•Splitzza - Simplify payments and splits | [Link](#)

February 2025

Tech Stack: MongoDB, Express, React, Node

- Developed a full-stack expense tracking application using MERN stack (MongoDB, Express.js, React.js, Node.js).
- Enabled users to add, view, filter, and delete transactions with intuitive UI and real-time feedback .
- Integrated dynamic charts and summary cards to provide a clear financial overview.
